EDUCATION

- **BSC. Hons in Computer Science**
Studying University of Bedfordshire
- **Higher National Diploma in Information Technology**
SLIIT CITY UNI
- **Foundation Certificate in Information Technology**
SLIIT CITY UNI | Grade 3.16
- **Diploma in English**
ESoft Metro Campus
- **GCE Ordinary Level**
St. Joseph's Balika Maha Vidyalaya
Passed with 8A 1C Passes

PROJECTS

- **Hardware shop Commercial Website - 2025**
Developed a fully functional e-commerce website for a hardware shop as part of a group project. Handled both front-end (HTML, CSS, JavaScript) and back-end (PHP, SQL) development. Implemented features like product listings, shopping cart, checkout, user authentication, and order management.
- **To Do List Mobile Application - 2024**
Contributed to a group project developing a To-Do List app for Android using Java. Specifically implemented the task deletion feature, ensuring efficient data handling. The app enables users to add, edit, delete, and mark tasks as completed for better task management.
- **Customer Behavior Prediction Model - 2024**
Conducted a Google Form survey to collect customer data and analyzed it using R. Processed the data from an Excel sheet, identified shopping patterns, and developed a predictive model to forecast future purchases, aiding businesses in data-driven decision-making.
- **ERP System for Artisan Products – 2024**
Developed an online e-commerce platform where artisans can showcase and sell their products. Built the website using HTML, CSS, JavaScript, and PHP, ensuring a user-friendly interface and smooth functionality for both sellers and buyers.
